

SHOLA HASHIMOVA

JAVASCRIPT DEVELOPER

AZ1111 • (+994) 70 280-75-70 • solhsimova@gmail.com • [Portfolio](#) • [LinkedIn](#) • [GitHub](#)

Motivated JavaScript Developer with a solid foundation in core JavaScript concepts (closures, scope, hoisting, array/object methods) and hands-on experience building responsive interfaces with React. Currently deepening knowledge in data structures, algorithms, and modern frontend architecture. Comfortable using AI-assisted development tools to accelerate learning and improve code quality. Passionate about writing clean, efficient code and continuously growing as a developer.

EXPERIENCE

2025 September – PRESENT

Frontend Developer | Freelancer | Baku, Azerbaijan

- Developed responsive and user-friendly web interfaces using HTML, CSS, JavaScript, and React.
- Built personal and practice projects to strengthen frontend development skills and improve user experience.
- Implemented responsive designs compatible with desktop, tablet, and mobile devices.

2025 October – 2026 January

Informatics Teacher | Intern | Kaspi Education Company

- Assisted informatics teachers in delivering lessons and supporting students.
- Helped prepare educational materials and classroom activities.
- Strengthened communication and organizational skills in an educational environment.

SKILLS

JavaScript (ES6+) • Core JS Concepts (Closures, Scope, Hoisting, Callbacks) • Array & Object Methods • DOM Manipulation • HTML5 • CSS3 • React.js • Next.js • TypeScript • React Native (basics) • Data Structures & Algorithms (fundamentals) • React Query • Redux Toolkit • Version Control (Git) • API Integration • Responsive Design • Browser DevTools • AI-Assisted Development (Claude, GitHub Copilot) • Web Performance Optimization • Basic SEO

PRACTICE & PROBLEM SOLVING

- Regularly solve algorithmic challenges on Codewars to strengthen JavaScript fundamentals and problem-solving skills.
- Practice core JavaScript concepts (closures, hoisting, scope, array methods) through daily hands-on exercises.

EDUCATION

- Information Technologies | AACU | Baku, Azerbaijan — September 2022 – July 2026
- Frontend Programming | Sarkhan Rahimli — April 2026 – Present
- Frontend Programming | Code Academy — October 2024 – January 2025
- General English | British Academy — November 2023 – June 2024
